Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1. (currently amended) A combination apparatus comprising:

A. a foldable menu having an inner surface and an opposing outer surface; a plurality of transparent pockets mounted on the inner surface of the menu, each of the pockets sized and configured for holding a printed insert;

B. a software program enabled for ~~receiving user inputted song information and, therefrom,~~ generating the printed inserts in a size and form for fitting into the pockets of the menu; the software program comprising the instructions:

```
10 start
20 if single artist go to 60
30 rem: multiple artists
40 enter artist and song
50 repeat 40 till "next"
60 enter artist, album title, song title list
70 if jewel-case go to 100
80 rem: menu pocket card
90 print title card
100 print jewel case insert
110 end
```

and,

C. at least one card stock sheet perforated for tearing into a plurality of the printed inserts after the at least one card stock sheet is printed;

whereby, a user ~~is enabled to~~ selectively create custom inserts corresponding to custom song collections.

Claim 2. (previously presented) The apparatus of claim 1 wherein the software program comprises the interactive steps of: selecting one of a single artist and plural artists; receiving information including at least one of: at least one artist name, at least one album

Appl. No. 10803430

title, and at least one song title; and selecting and printing the printed inserts in a size and format for fitting selectively into one of a jewel case and the pockets of the menu.

Claim 3. (previously presented): The apparatus of claim 1 wherein the menu is enabled for folding to enclose the inner surface within the outer surface for compact storage of the folder.

Claim 4-6. (cancelled)

Claim 7. (previously presented) The apparatus of claim 1 wherein the menu is a folder having three panels, a center panel and two laterally offset side panels, the side panels foldable along vertical creases whereby the folder is enabled for standing upright with the side panels not coplanar with the central panel.

Claim 8. (currently amended) A method ~~for improving the ability of a user to relate songs played from recordings to their titles, artists and other information,~~of creating a customized playlist, the method comprising the steps of:

A. providing a foldable menu having ~~an inner surface and an opposing outer surface, the menu supporting~~ a plurality of transparent pockets ~~mounted on the inner surface~~, each of the pockets sized and shaped for receiving and holding a rectangular printed insert;

B. providing a card stock sheet perforated for tearing into a plurality of the inserts after being printed, the inserts sized for ~~inserting~~ insertion into the transparent pockets of the menu;

C. ~~in an interactive~~a software enablement, operatively selecting one of a single artist and plural artists; and

    i)   for a single artist selection, printing onto at least one of the inserts, information including: an artist name, at least one album title, and at least one song title;

    ii) for a plural artist selection, printing onto at least one of the inserts, information including; song album title and a list of song titles corresponding to the song album title, and at least one artist name with, for each of the artist names, a song title corresponding to the artist;

D. perforating the card stock sheet into individual printed inserts; and

E. mounting the inserts into the pockets of the menu;

3

whereby, a user creates a custom reference to a custom song collection.

Claim 9. (previously presented) The method of claim 8 wherein the software program comprises the interactive steps of selecting one of a single artist and a plurality of artists including at least one of: an artists name, an album title and a song title.

Claim 10. (previously presented) The method of claim 8 wherein the software program comprises the program steps of at least:

```
10 start
20 if single artist go to 60
30 rem: multiple artists
40 enter artist and song
50 repeat 40 till "next"
60 enter artist, album title, song title list
70 if jewel-case go to 100
80 rem: menu pocket card
90 print title card
100 print jewel case insert
110 end
```

whereby, a user selectively creates custom inserts corresponding to custom song collections.
